Neil Mammen has been a partner of mine in ministry for years. Neil has a gift that spans all age groups. This is because I can name none that exceed Neil's preparedness when he takes the pulpit. Neil has sound Doctrine and Theology. His style is relevant yet it remains biblically sound. You can expect dynamic visuals and creatively enhanced teaching that pulls each hearer in!

I have found Neil to be consistently unique on topics ranging across the gamut in which he can disarm individual's reservations yet convince them with sound truth. I would encourage you not to hesitate to have Neil speak at your church or retreat. His website speaks volumes on what he can bring to the table and having him in person... brings it all together!
